# FLAT DECK TRAILER

## It's Titan Tough

## Flat Deck

Flat Deck trailers are designed to carry a variety of loads, including machinery and equipment.

You can safely load and unload items like steel frames, pool tables and pallets due to the trailer having a flat deck with no sides.

At Titan Engineering, our flat deck trailers come with full tie rails on each side of the trailer to secure your load. Don't forget it also comes with a two-year manufacturer warranty.

# FLAT DECK TRAILER
